

# FREE PET WELLNESS CLINICS

SATURDAY, SEPTEMBER 30  
12:00 – 3:00PM

This multi-site clinic is focused on providing human and animal wellness care for our neighbors who are unsheltered or who are low-income with pets. The clinics are in honor of World Rabies Day.

For pets, each site will offer animal vaccines, flea treatment, microchips and pet supplies. Human healthcare includes health screenings and childhood and Mpox vaccines. *New COVID and flu vaccines may be offered depending on availability.*
